

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. N. B.—MONEY RECEIVED ON DEPOSIT, for INVESTMENT in GOOD SECURITIES, and INTEREST GUARANTEED to be PAID on the same, at CHICAGO, NEW YORK, and BOSTON.

 Taxes Paid, and Information given about Lands in any Section of the West.

P. S.—We have facilities for loaning money here, LEGALLY, at from 12 to 20 per cent. per Annum—secured amply, by Trust Deeds on Real Estate—and by the *Laws of Illinois*, the money can BE MADE on said Trust Deeds, in from 10 to 30 DAYS after the maturity of the same; thus offering a good and secure investment to those having funds to loan. Our charge for thus investing, to the party loaning, is ONE PER CENT. Details given to any party on application, by mail or otherwise.

A CAREFUL examination of the details of our RAILROADS and general Business Statistics, will give some idea of the *immense* business and trade which now is, and must continue to be concentrated at Chicago. The natural increase of the laboring and other classes of population incident to the various mechanical branches of business, now being conducted or projected, with a similar increase in other pursuits, must give Chicago an aggregate increase in population for the next few years fully equal to that of the past, thus making us, during the Spring of 1856

A CITY OF 100,000 PEOPLE !!!

 NO ONE, *we think*, who looks at the present position of Chicago, and reflects that it is situated at the head of navigation on the GREAT LAKES, within reach of the COAL FIELDS of Illinois, the LEAD MINES of Galena, and the IRON and COPPER of Lake Superior, and surrounded by the great agricultural fields of the West, making us now

The Largest Primary Grain Market of the World,

[SEE OTHER SIDE.]

can doubt that she is destined to stand among the GREAT CITIES of this Continent! With these facts so self-evident, and with the knowledge that but a *title*, as yet, of these advantages are practically developed, it is very clear that our city has but just commenced to grow; and we assert the fact to be, that in no city in the United States are there so good chances for

PAYING INVESTMENTS

(Whether it be in prosecuting some of the various mechanical or mercantile pursuits—loaning money, well secured—or the purchasing, judiciously, of Real Estate,) as are presented at this time,

IN THE CITY OF CHICAGO AND ITS VICINITY.

The arrangements of our House, and our knowledge of the property in this city and vicinity as well as of our acquaintance with the condition of the makers of the Bonds, Notes and Obligations offered for sale—are such as to result to the advantage of those desiring to invest here, whether the buyer visits us in person, or gives us orders per mail or otherwise.

Parties (whether in the United States or beyond) desiring to remit us for investment, can do so by procuring checks on

R. K. SWIFT & CO., GEO. SMITH & CO.,

or any of the Chicago Bankers; or by drafts on the Eastern cities—together with such instructions as will inform us of their wishes in the premises.

We ask a calm reading of the facts and figures so amply set forth in published history of our Commerce and Railroads, issued last Spring, calling special attention to the articles on Railroads and the Statistics of Population, and merely to aid reflection, suggest these points:

1st, That at this time there are arriving and departing over one hundred trains of cars daily from this our "Garden City."

2d, That all these FOURTEEN RAILROADS AND SOME THIRTY EXTENSION AND BRANCH LINES centering here, have been built so far, and will be nearly all completed entire in 1855, without one dollar of expense to the city of Chicago, and giving and aggregate of some eight thousand miles of Railroads.

3d, That the increase in population for the year 1853, was twenty-two thousand persons—equal to fifty-seven per cent. and the census completed July 1855, shows a population of over 83,000.

Particulars about property, or general inquiries from non-residents, promptly answered by mail or otherwise.

CHICAGO DIRECTORY FOR 1856-7.

The high and efficient character of this Annual will be increased, in keeping with the growth of the City and the extended patronage bestowed upon it. In order to allow time for many changes and improvements in the method of taking the names, printing, binding, &c., the canvass for this work will not be commenced till September, 1856, and the first edition issued early in November.

PREFATORY.

The present issue of the Directory is the third consecutive publication which has emanated from the same establishment; and it is hoped that an improvement will be observed in its various departments, in keeping with the rapid strides of our City, the business details of which it attempts to convey a synopsis, as correct as the changes consequent upon its marvellous growth will admit. Such as have taken place since the canvas of the City, will be found in the supplementary pages, which have been kept open till the latest possible moment.

The Publishers take this opportunity of acknowledging the very liberal support they have received from the advertising portion of the community, assuring them that no exertion shall be spared to render the future publications in every way worthy of the public patronage.

MANUFACTURERS OF

WELDED IRON PIPES,

BOILER FLUES, BRASS VALVES, COCKS & GAUGES,

AND EVERY DESCRIPTION OF

STEAM AND GAS FITTINGS.

W. & Co. would call the attention of the public to the fact that they are the originators of the plan of warming buildings, heating, drying, &c., by steam, through the means of small WROUGHT IRON PIPES.

For Factories, Hotels, Public Rooms, Banks, Theatres,

CONCERT ROOMS, CHURCHES, &c.,

this plan of heating is particularly adapted, and invariably meets with the warm approval of those adopting it.

OUR MODE OF HEATING

PRIVATE HOUSES, GREEN HOUSES, &c. WITH HOT WATER

meets the decided approval of all those who prefer the introduction into their apartments of a pure, salubrious atmosphere, rather than the scorched air and sulphurous gases that proceed from surfaces of over-heated iron.

MARINE AND FIRE RISKS

Taken at rates current with responsible companies. Open Policies issued to parties desiring them. Losses settled on the most liberal principles. The advantages of Insuring in a home company, over one where losses are acted upon and adjudged at a distance, often requiring the most voluminous proofs, and frequently attended with great annoyance, commends itself to the attention of all western parties requiring insurance.

In addition to the above well-known gentlemen who compose the board of Directors, there are many others equally prominent who are interested in this company. Those wishing insurance are invited to examine the list for themselves.

The undersigned Houses in London grant credits on the undersigned, viz:

Baring Brothers & Co.
The London and Westminster Bank, Lothbury.
Messrs. Coutts & Co.

Parties desiring to remit money to the United States through our correspondents, "the LONDON and WESTMINSTER BANK, Lothbury, LONDON," can do so by application to the following Bankers, their agents and correspondents:

Persons residing in the interior of England, Scotland, or Ireland, desiring to remit money to their friends in the Western States or Territories of the United States, can do so by lodging their money with the nearest Bank and requesting the Manager to procure, either of Messrs. Baring, Bro. & Co., the London and Westminster Bank, or of Messrs. Coutts & Co. a Letter of Credit for the amount, payable at Chicago, in favor of the person in the United States, to whom they wish to remit money, which Letter of Credit will be cashed by the undersigned at Chicago, or if required, can be made available with any of the correspondents of the undersigned throughout the United States; or otherwise, money may be lodged to the credit of the undersigned, with the Provincial Bank of Ireland, Dublin; National Bank of Scotland, Edinburgh; or with any of the Houses in the Old Country above named, and the sum so lodged will be paid by the undersigned to the person in whose favor the same may be advised by the Bank or House receiving the same. *Particular care should be taken to give the plain and full address of the person in whose favor the Letter of Credit is requested, and, when practicable, the Signature and residence of the person in whose favor the credit is to be issued, should be forwarded along with the order for the Letter of Credit.*
